MEMORANDUM FOR: Associate Deputy Director for Intelligence

SUBJECT : Request to Speak at the Center for Strategic and International Studies, Georgetown University

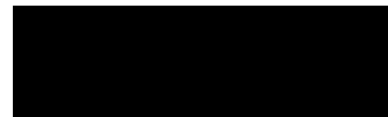

1. I request approval to speak before a "graduate honors seminar" from the School of Foreign Service, Georgetown University. There will be 20 students in the class, including three foreigners: one Canadian, one Swiss, and one Barbadian. The subject will be France's foreign policy, particularly economic and defense policy, should the Left win the March 1978 parliamentary elections.

2. Kenneth A. Myers, Director of European Studies, CSIS, telephoned me the evening of 8 March asking if I could hold forth this evening (9 March). I replied that I'd be very happy to participate but would require more than one day to clear my plans with my employers. He then advanced the proposed date of my appearance "about three weeks," i.e., on or about 29 March.

3. Since this is a seminar of alert young people, my talk will be essentially extemporaneous. In so small a group I would prefer to avoid a prepared address as too "wooden" an approach. The French Socialists are noted for their didactic loquacity. They have said and written much. I should find no difficulty in steering clear of classified material.

4. I will be (wish to be) identified as an overt CIA employee.
